

GLAZING RENOVATIONS

History of Glazing Renovations

Glazing Vision Ltd was established in 1994, initially set up as a Glazing Refurbishment company. The company was created to maintain and refurbish architectural glazed structures. Initial contracts were for cleaning, glass replacement and maintenance contracts.

The first contracts were the servicing of glass at The Terraces, London and Uttlesford District Council offices. Later Glazing Refurbishment became a preferred glazing contractor for Docklands Light Railway, undertaking glass changes and glazing improvements. Today Glazing Vision is the UK's leading manufacturer of luxury glass roof solutions.

At the end of 2017 the board of Glazing Vision made the decision to once again offer a professional service for glazing refurbishment, renovation and restoration. Glazing Renovations Ltd was launched in 2018 to offer a complete glazing maintenance package.

A glazing fabrication company was purchased and a glass processing company GV Glass was established to service both Glazing Renovations and Glazing Vision.

Glazing Vision Ltd Group of Companies

Glazing Vision is the UK's market leading manufacturer of flat roof rooflights.

Glazing Vision inc. Launched in 2016 to service the east coast of the USA with innovative skylight solutions. Glazing Vision is now manufacturing in Connecticut and supply skylight solutions across the US & Canada.

Glazing Renovations Ltd. has been set up to offer a professional renovation and maintenance service. Glazing Renovations undertake all Glazing Vision installations, service and maintenance both home and in Europe and the US.

GV Glass Ltd was set up to service Glazing Renovations and Glazing Vision. Providing a solution for high quality double glazed units to the highest possible standards.

Glazing Vision Head Office, Diss

We are specialists in high level difficult access glass replacements.

Safety is paramount when lifting large panes of glass. We use certified glass suckers and lifting equipment.

We can handle the whole replacement or if a crane is available any lifting equipment.

Commercial Glass Replacement

Our comprehensive glazing reports and inspections are offered on glazing throughout the entire building envelope.

We have experience in roof atriums, rooflights, curtain wall facades, canopies, windows, balustrades and even internal glazing. We can report on current and potential issues with your glazing.

Glazing Reports

Glazing systems are reliant on EPDM weather gaskets and sealant to keep them weather tight and serviceable, their components are susceptible to age and weather related dilapidation and do have a serviceable lifespan.

Leak Ingress Repair

Prevention is always the best form of protection against leakage. Regular cleaning and maintenance can save you money in the long run. Keeping on top of the cleaning and maintenance prevents any potential leakage and replacement issues at untimely periods.

Servicing & Preventative Maintenance

Our curtain wall repair and maintenance works ensure your curtain wall system remains in a fully serviceable and optimum performance state.

Issues that we can solve water ingress, cracked glass, poorly performing spandrel panels, blown glazed units and damaged or failed structural fixings.

Curtain Walling Works

On many of our glazing projects, commercial rope access and abseiling has progressively become the preferred method to overcome the expense and disruption caused by utilising conventional access methods.

Rope Access Services

Technical Experts in Glazing, Glazing Renovations are able to call on experts throughout the Glazing industry. Internally we have a wealth of experience in glass and glazing.

Whether refurbishing a skylight or assessing a large glass structural glass building we can find a solution to your problem.

Glazing Renovations is CHAS registered and insist on the highest possible conditions of site safety.

Glazing Renovations are ISO9001 certified, also the glass we use is of the finest quality, typically to meet the hadamar standard.

Hugh Callacher the founder of Glazing Vision Ltd now focuses on his charity, the Missing Kind.

The charity consists of :

KindaKafe and shop, Norwich

KindaKafe is a safe, welcoming space promoting healthy eating and community kindness. It hosts its own charitable and social change events and offers a pay it forward scheme for those in need.

KindaVillage, Wales

A Kindness farm, a self-sustaining eco village, built around an intentional community of people passionate about social and environmental change

You can find out more about the charity and ways to get involved at www.missingkind.org

The Missing Kind is a registered charity (registration number 1156133)
